# EDITORIAL

The trustees of Sarvodaya Samaj established Sarvodaya Vidyalaya in 1969, which was the first private Gujarati Medium School in Chembur. To begin with, the School did not have its own building and was started with classrooms provided by Swami Vivekananda School at Chembur, Next year it was shifted to a building at 11th Road in Chembur and two years later to the present premise, Land belonging to Shri Pravinchandra Dwarkadas Dalal.

Bhavna Trust was established in 1972 with a team of four enthusiastic, education loving and dynamic trustees Late Shri. Gagubhai Tokarshi Chhadva, Shri. Keshavji Umarshi Chhadva, Shri.Pravinchandra Dwarkadas Dalal and Late Shri Mulji Khiyanshi Nisar. In 1973-74 Bhavna Trust took over the management of "Sarvodaya Vidyalaya" from Sarvodaya Samaj. As a first step, it Purchased the premises for the school. The trustees appealed to their friends for donations for the school building. Response was extremely good. In December 1974, the school building was started. Trustees gave personal attention to the building work with full dedication and self sacrifice .Essential facilities have been provided in the school. The staff, students and parents co-operated a lot and bore all hardships along with the trustees during the transit phase.The school and college is managed through the school committee and college committee that keeps in mind the basic aims and objectives of the trust and follows department rules and regulations while running the school and college.Admissions are given to all pupils making no distinctions of caste, creed and religion. Donations are not raised from the Pupils for admissions or any other purpose at any stages.

As time passed by, there was growing demand from Parents and well wishers for an English Medium School. In response to this,Bhavna Trust set up Sarvodaya Vidyalaya English Medium in 1980 with a K.G. Class .Thereafter every Year as a natural growth an additional standard was added in 1992, the first batch of English Medium students appeared for S.S.C. Exam .

Sarvodaya Vidyalaya began with hard days. With the support of staff. students (past and present) and well wishers, a paradise has been created at Sarvodaya Vidyalaya .In 1991 Bhavna Trust has started computer classes to give knowledge of computer to all the students, from standard I to standard X for which an ultra modern computer laboratory was setup with 10 computers. Till today it is running successfully.

In the year 1997 Bhavna Trust obtained a permission to start Junior College of Commerce & Science which was attached to our Mehta Sarvodaya Vidyalaya Gujarati Medium and it started Junior College of Commerce named Mehta Sarvodaya Junior College of Commerce. This college was started with a view that students who passed S.S.C from our school need not go in other college and students can take admission in Junior College. The College has a well equipped Physics, Chemistry & Biology laboratories. This has helped our students a lot because students of this school, do not have to run from one college to other for admission and do not have to pay any donation. The ultimate aim of Bhavna Trust was to provide education to needy students from Junior KG to Degree. The aim was, a child who takes admission in Junior KG should complete his/her education up to graduation in one premises only. With a view Bhavna Trust obtained a permission to open a Degree college for B.Com and B.Sc. (Computer Science) in the year 2003. Later in the Year 2007 college got the permission to start B.Sc (IT) and B.M.S. in year 2008 . In the year 2022 the college got the permission to start BAF ( Bachelor of Accounting and Finance ) and M.COM. ( Masters in Accountancy ). The Journey from KG to PG is a Testament to the power of determination, Commitment , hard work and the beauty of aspiration . With respect to the latest technology the college set up Four ultra modern computer labs and AV Room (Audio Visual) to give Advanced education to students. The College Library serves as a Comprehensive resource hub, housing a vast collection of print and a digital material , including Text books , Academic Journals and Reference books .

As part of its green initiative to become paperless, the college uses a QR Code attendance system. The entire college campus is equipped with fire alarms and CCTV surveillance to protect people and property. ICT and smart classrooms are available at the college. Greenvio Solution bestows the Green Campus award on the college. In relation to e-waste, plastic waste, education, employability, student exchange, faculty exchange, research, etc., numerous MoUs have been signed.

“We want that education by which character is formed, strength of mind is increased, the intellect is expanded, and by which one can stand on one’s own feet” – Swami Vivekananda.

A student’s life reaches a crossroads after finishing Higher Secondary Education, when he or she is faced with the most important decision of their lives – selecting a course according to their aptitude and the best college with a multifaceted approach towards higher education that is complete, whole and sound for their career.

In this fiercely competitive world, BHAVNA stands as a beacon, offering limitless access to information that can be transformed into comprehensive and indispensable knowledge.

At BHAVNA we emphasize on instilling confidence and independence promoting critical thinking that will help the students to act and react in real- life situations. Along with imparting knowledge , opportunities are provided so that students can learn and test the applicability of the knowledge acquired.

The college provides academic and personal counseling to each student on regular basis. The vital essence is to provide personal direction and developmental guidance. Counseling enables teachers and students to better connect, which in turn helps them to cope with the problems of growing up, keep up with their studies and planning their careers.

To achieve success in this competitive world, we aim to generate in our students cutting edge that will enable them to succeed .Integrated development of students will not only enable them to acquire knowledge, develop skills and attitudes, but also foster them to become the best that they can be.

Students who enter BHAVNA as aspirants without direction, experience a sea change in their lives when they graduate. They enhance their competitive–edge by undergoing experiential education at BHAVNA.

### दयाळूपणा म्हणजे कृतीत उतरवलेली करुणा

'दया' म्हणजे मुखाद्याबद्दल असलेली संवेदना, भावना. 'दया' हा असा गुण आहे जो सगळ्यांमध्ये नसतो तो क्वचित कोणाकडे तरी असतो. त्याचं कारण असू की, आपण या जगात राहत आहोत ज्यात दोन विश्वयुद्धे झाली. जर सगळ्यांमध्ये दया, करुणा असती तर ही युद्धे झालीच नसती. निष्पाप जीवांचा बळी गेला नसता. असो!

या पृथ्वीतलावर साऱ्या जीवांमधील सर्वश्रेष्ठ आणि उत्तम प्रजाती ही मानवजा मानली जाते आणि मानव जातीत सर्वश्रेष्ठ गुण जर का कोणता असेल तर तो दयाळूपणा आहे. मानवता हा धर्म फक्त लोकांची मदत करणे नाही तर मुख्य जीवांवर दया दाखवणे सुद्धा आहे. सांगायचं झालं तर मानव जाती पेक्षा मुके जनावर हे बरे, कारण मुक चपाती मुखाद्या कुत्र्याला भरवली तर तो आयुष्यभर त्या व्यक्तिला विसरत नाही. पण मनुष्य मुखाद्याला मदत करतो तेव्हा तो त्याकडून काहीतरी परतफेड करून घेव्याची अपेक्षा ठेवतो.

भगवान श्रीकृष्ण गीतेत सांगतात -

“कर्मव्येवाधिकारस्ते मा फलेषु कदाचन ।

मा कर्मफलहेतुर्भुमा ते संगोऽस्त्वकर्मणि ॥”

अर्थात, श्रीकृष्ण म्हणतात की तु फक्त कर्म करत रहा, फळाची अपेक्षा करू नको, तुझा अधिकार हा कर्मावर आहे फळावर नाही. जीवनात मनुष्याचे कर्म त्याचे श्राव्य निर्माण करीत असतात. जगातील सगळी लोकां आप-आपली कर्मे करीत असतात परंतु कोणाला त्याचं चांगलं फळ मिळतं तर कोणी मिळालेल्या फळावर समाधान मानत नाही. खरतर आपण आपल्या क्षमतेनुसार मेहनत करत असतो आणि त्यानुसारच आपल्याला फळ हे मिळत असतं.

ज्या व्यक्तित दयाळूपणा हा गुण असतो ती व्यक्ति नेहमी संवेदनशील असते. आणि नेहमी निःस्वार्थीपणे इतरांची मदत करत असते हे त्याच्या कृतीत दिसून येते. आणि यालाच करुणा असे म्हणतात. प्रत्येक व्यक्तित्या जीवनात करुणा आणि दयाळूपणा

# ANNUAL DAY

The Bhavna Trust Junior and Degree College Annual Day Program was a grand celebration that brought together students, faculty, alumni, and esteemed guests to commemorate another successful year of academic achievements, cultural diversity, and extracurricular excellence. The event was held in the Turf ground in the college premises on 4th February, 2022. The event commenced with the traditional lighting of the lamp by Chief Guest Dr. Arvind Luhar, Chairman Board of Studies, University of Mumbai, Trustees and Our Principal Dr. Aruna Singham. The esteemed Chief Guest, delivered a warm welcome address, emphasizing the significance of the annual day. The ceremony set the tone for a day filled with inspiration, entertainment, and reflection.

The cultural performances segment was a captivating showcase of talent and creativity. Students captivated the audience with a wide array of dance forms, from classical Bharatanatyam to contemporary hip-hop.

Outstanding academic achievements were recognized and celebrated during this segment. Students were awarded for their exemplary performance in various fields of study.

The event concluded with heartfelt gratitude expressed to all participants, guests and the dedicated organizing committee. Dr. Aruna Singham extended her appreciation for the collective efforts that made the annual day a resounding success.

# CONSTITUTION OF INDIA

The representatives of the Indian people framed the Indian Constitution after a long period of debates and discussions. It is the most detailed Constitution in the world.

No other Constitution has gone into such minute details as the Indian Constitution. The Constitution of India was framed by the Constituent Assembly which was established in 1946. Dr Rajendra Prasad was elected President of the Constituent Assembly. A Drafting Committee was appointed to draft the Constitution and Dr B.R. Ambedkar was appointed as the Chairman. The making of the Constitution took a total of 166 days, which was spread over a period of 2 years, 11 months and 18 days. Some of the salient features of the British, Irish, Swiss, French, Canadian and American Constitutions were incorporated while designing the Indian Constitution.

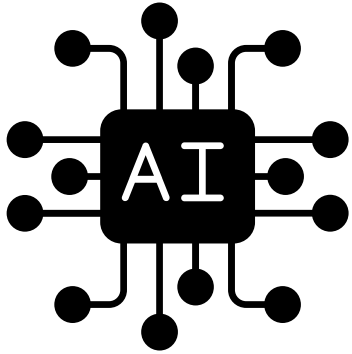

The Constitution of India is the supreme law of India. The document lays down the framework that demarcates fundamental political code, structure, procedures, powers, and duties of government institutions and sets out fundamental rights, directive principles, and the duties of citizens. It is the longest written national constitution in the world. It was adopted by the Constituent Assembly of India on 26 November 1949 and became effective on 26 January 1950. The constitution replaced the Government of India Act 1935 as the country's fundamental governing document, and the Dominion of India became the Republic of India. To ensure constitutional autochthony, its framers repealed prior acts of the British parliament in Article 395. India celebrates its constitution on 26 January as Republic Day. The constitution declares India a sovereign, socialist, secular, and democratic republic, assures its citizens justice, equality, and liberty, and endeavours to promote fraternity.. The words "secular" and "socialist" were added to the preamble by 42nd amendment act in 1976 during the Emergency. The constitution is considered federal in nature, and unitary in spirit. It has features of a federation, including a codified, supreme constitution, a three-tier governmental structure (central, state and local) division of powers; bicameralism, and an independent judiciary. It also possesses unitary features such as a single constitution, single citizenship, an integrated judiciary, a flexible constitution, a strong central government, appointment of state governors by the central government, All India Services (the IAS, IFS and IPS), and emergency provision

# THE FUTURE OF AI: " OPPORTUNITIES AND CHALLENGES"

Artificial intelligence (AI) is rapidly transforming various industries, from healthcare to finance, and is expected to continue growing in the coming years. While AI has the potential to bring significant benefits, it also poses several challenges that need to be addressed.

One of the major opportunities of AI is its ability to analyze vast amounts of data and generate insights that humans may not be able to discover on their own. For example, AI can be used to detect diseases in medical images, predict equipment failures in manufacturing, and provide personalized recommendations to consumers. By automating repetitive tasks and augmenting human decision-making, AI has the potential to increase productivity and efficiency across industries.

However, AI also poses several challenges, including ethical and legal concerns. As AI algorithms become more sophisticated, they may be used to manipulate people's behaviors or discriminate against certain groups. In addition, the use of AI in decision-making can raise questions about accountability and responsibility. For example, if an AI system makes a biased decision, who is responsible for the consequences?

Another challenge of AI is its impact on jobs. While AI has the potential to automate many tasks and increase productivity, it may also lead to job displacement in certain industries. It is important to ensure that the benefits of AI are shared equitably and that workers are given opportunities to reskill and transition to new jobs.

To address these challenges, it is important for policymakers, industry leaders, and the public to work together to establish ethical guidelines and regulations for AI development and deployment. It is also important to invest in education and training programs to ensure that workers have the skills they need to thrive in a world with AI.

In conclusion, AI has the potential to bring significant benefits to society, but it also poses several challenges that need to be addressed. By working together to develop ethical guidelines and invest in education and training, we can ensure that the benefits of AI are shared equitably and that we build a future where humans and AI can coexist and thrive.
